Dr. Rolando Garcia, South Campus President, and Yolanda Brown, Dean, welcomed everyone to the South Campus Student Forum. Dean Brown introduced the presenters from the Student Government Administration.

The students provided an overview of the 2015-16 student concerns from South Campus. The issues included inconsistent and uncomfortable classroom temperatures, a request for an additional entrance along 72nd Avenue, a user friendly mobile interface, tutorials, a layout redesign and an open forum for students to provide suggestions to improve D2L, more food menu options and the addition of Papa John's pizza on campus. The completion of the new chiller plant on campus has stabilized the classroom temperatures. A meeting was held with the City of Pembroke Pines to address the College's traffic concerns onto the campus. A recommendation was made by the City to widen the entrance on Pines Boulevard. To improve user friendliness, D2L made several improvements to the user interface and released a user friendly mobile application. The College's food vendor added Cafe Bustelo which provides coffee and sandwiches. Despite the addition of the Cafe, students would prefer Papa Johns or Panda Express. The College's food vendor is working on adding additional food providers and are now offering Panda Express on the campus.

The students provided an overview of the 2015-16 student concerns from the Partnership Centers. The issues included improved Wi-Fi connectivity, the need for a turn lane at the Miramar West Center entrance, and an increase in food options to include more than just Subway. After testing the connectivity issues at the Miramar West Center, it was determined that problem was related to user errors. A help desk assisted students in the steps to log in to the WiFi. The opening of the Pembroke Road overpass may provide students with a U-turn at the traffic light. The College's food vendor is working with a vending supplier to provide yogurt, fruit, and sandwiches in the vending machines at the Centers.

The students shared the 2016-17 student concerns from South Campus which included better course scheduling, better text book pricing and inventory of used and rental options, and a Seahawk OneCard option for financial aid on one card to use at Ricoh stations, campus bookstores, and at campus cafes.

The students shared the 2016-17 student concerns from the Partnership Center which included the request for a turn lane at the Miramar West Center entrance, and more course offerings at the Weston and Miramar Centers.

Sebastian Serna asked if the students could collaborate on the Dunkin Donuts space.

John Dunnuck, Vice President of Operations, stated that the Dunkin Donuts will be built in time for the Fall semester. The design incorporated the needs of the student clubs.

Cathia De La Fuente stated that vegetarian options are the same price as meat products and asked for additional vegetarian options.

Mr. Dunnuck shared that the College is working with the food vendor to create more vegetarian and affordable food options on the campuses.
